

The Instrument Rating (IR) Modular course

Holding an Instrument Rating is a must for anyone wishing to become an airline pilot. The IR is the most demanding of the modules enabling you to fly in the world's busiest airspace in the most inclement weather.

The training takes place in our state of the art Alsim simulator & our PA34 Seneca II aircraft.

Minimum training requirements for the JAA IR are 55 hours, reduced to 50 hours for CPL(A) holders.

Course structure –

35 hours Alsim Simulator
15 hours PA34 Seneca II
6 – 8 weeks
